

# 100% E-WASTE RECYCLING

A BILL TO IMPROVE ELECTRONIC WASTE COLLECTION

## METALS FOR ENERGY TRANSITION

Minnesota's electronic waste stream contains critical metals that can be recycled and used in renewable energy products.

Lets get back on track for supplying metals for manufacturing

## Free Recycling

The e-waste bill will make recycling old electronics free for all Minnesotans. Funded by the producers who made those products.

**Inaction is poisoning us.** In 2023 Minnesota experienced a football field sized landfill fire that was caused by a battery

### Jobs for Minnesotans

By recycling our e-waste, we can create 1700 direct jobs

## ! WORKERS AT RISK !

Weekly U.S. hauling truck fires are caused by batteries from electronic devices,

# 70%

Of landfill lead pollution is from discarded electronics.
